Frontend React Developer

Front-End Developer specialized in React, Next.js, Tailwind, with strong focus on clean code, performance optimization and user experience. Focused on building responsive, accessible and high-performance web applications. I'm constantly learning and improving my skills, currently upskilling fullstack engineering and AI integrations. Open to opportunities where I can contribute, collaborate, and grow.

WORK EXPERIENCE

Freelance
Frontend Developer   Remote • 2024 - Present

- Developed responsive, optimized, and accessible interfaces using React, Next.js, and TypeScript.
- Delivered pixel-perfect UIs aligned with client requirements and business goals.
